## NEXT GENERATION CYBER SECURITY PROTECTION FOR PROFESSIONAL PRACTICES

**SECURE YOUR PRACTICE ♦ PROTECT YOUR REPUTATION**

### Recent Cyber Risk Statistics

48% increase in cyber attacks globally between 2013 and 2014

-PWC

30% of 2104 cyber attacks were targeted at financial services companies

-Symantec

80% of top 100 US law firms have had a security breach since 2011

- Mandiant

The industry leading IT security practitioners at **Private Client Cyber Security** work tirelessly to secure your practice's digital footprint.

Founded by former defense industry executives who recognized traditional anti-virus products are not enough to defend against today's cyber threat.

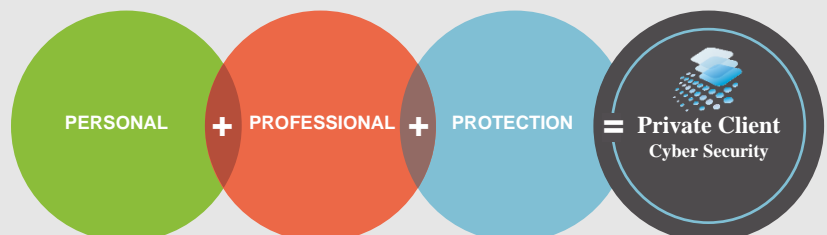

Providing a robust IT security strategy including security hardware, monitoring, incident response, and cyber intelligence to stop the modern adaptive threat.

*Work with our experienced team to identify solutions for your organization's toughest cyber security needs. We have developed white glove, turn key solutions to security concerns ranging from full service IT security outsourcing to single account secure email communications.*
